

Workshop

A roadmap for carbon farming (CF) in Europe

Thursday, 7th Dec. 2023, 9:00 – 12:00, online (MS Teams)

The project Road4Schemes develops a proposal for feasible and accepted systems for carbon farming based on the current experiences in European countries. In this workshop, the results of the project will be presented and discussed – especially the proposal for a roadmap for carbon farming. You are cordially invited to join the workshop, that will be held as a MS-Teams meeting. We are looking forward to seeing you at the event, the participation is free.

Program

- 09:00 – 09:10 Martin Hvarregaard-Thorsøe: Welcome address, outline of the project
- 09:10 – 09:20 Martin Hvarregaard-Thorsøe: What is carbon farming: definitions, rules, governance
- 09:20 – 09:35 Bert Smit: Current Status of CF in Europe
- 09:35 – 09:50 Stephane De-Cara: Economic aspects of CF
- 09:50 – 10:05 Morten Graversgaard: Social and socioeconomic aspects of CF
- 10:05 – 10:20 Jennie van der Kolk: Factors of success and concerns: Payments, Measurement – Reporting – Verification (MRV) systems
- 10:20 – 10:35 Break
- 10:35 – 10:50 Irene Criuscoli, Martin Hvarregaard-Thorsøe: A policy brief about CF - schemes
- 10:50 – 11:15 Andreas Baumgarten, Sophia Götzinger: Proposal for a Roadmap
- 11:15 – 12:30 Discussion: Advancing Carbon Farming in Europe:
- What is missing regarding defining carbon farming
 - Additional Factors of success and concern
 - Examples for new, successful initiatives incl. factors leading to acceptance
 - What are the barriers for successful adoption and implementation
 - Suggestions for proving effectiveness
 - What has to be considered for the decision tree of the roadmap
 - How can CF be reflected in the Carbon Removal Certificate Framework (CRCF)
